

LIFE 16 CCA/IT/ 000011

Desert-Adapt - Preparing desertification areas for increased climate change

Full day training course

September 2018, 27th at Mertola (PT) and 28th at Hoyos (SP)
October 1st at Caltagirone (IT)

Course: Desertification Adaptation Model: Training in Depth held by Marco Bijl from Forest Service Group (NL)

Program of the day:

- Welcome and introduction.
- Introduction to adaptation measures (AM's).
- Most used AM's in detail.
- Practical Assignments (landowners will need to bring their DAM plans on their laptop).
- Field visit to see AM's in the field where they have already been implemented by farmers

For the specific organization at each venue please visit the webpage in other languages or have a look to the programs in SP, PT, IT.
